PROFILE

Artificial Intelligence and Machine Learning undergraduate with strong skills in Python, Microsoft Azure, Pandas, and NumPy. SIH 2025 winner and completed internships at Microsoft and IBM SkillsBuild, with exposure to machine learning workflows, data analysis, and cloud integration. Demonstrated ability to solve real-world problems through AI/ML solutions.

EDUCATION

Kalasalingam Academy of Research and Education:

B.Tech in Computer Science and Engineering

Aug 2023 - May 2027

Krishnankovil | TamilNadu

Higher Secondary:

Narayana Junior College

June 2021 - May 2023

Tirupati | Andhra Pradesh

TECHNICAL SKILLS

Languages: Python, JavaScript (Basic), TypeScript

Frameworks & Libraries: FastAPI, React.js, Pandas, NumPy

Databases & Cloud: MySQL, MongoDB, Firebase, Azure Cosmos DB, Microsoft Azure

Tools & Platforms: GitHub, VS Code, Jupyter Notebook, Google Colab

Concepts & Technologies: OOP, DSA, API Integration, CNN

EXPERIENCE

Microsoft Elevate Intern ([Link](#))

Jan 2026 - Feb 2026

- Completed 4-week training on Microsoft tools, Azure fundamentals, and core AI/ML concepts.
- Gained hands-on understanding of cloud services, data analytics tools, and AI technologies used in modern applications.
- Built a Capstone Project: Super-Resolution GAN using Python, TensorFlow, OpenCV, and NumPy to enhance low-resolution images into higher-quality images.

IBM SkillsBuild Intern ([Link](#))

Jan 2026 - Feb 2026

- Completed 6-week internship and learned the fundamentals of Artificial Intelligence and Machine Learning.
- Developed an AI Travel Budget Planner for Students, a web application that helps students estimate and manage travel expenses efficiently.
- Applied Python, FastAPI, HTML, Tailwind CSS, and JavaScript tools to design a simple solution that analyzes user inputs and suggests a suitable travel budget plan.

PROJECTS

One Stop Personalised Career and Education Advisor

[Link](#)

- Built EduPath Navigator, a personalized career and education advisory web application for 10th and 12th pass students, consolidating courses, colleges, and scholarships in one platform.
- Developed EduPath Navigator using HTML/CSS/JavaScript, Node.js, Firebase, and shadcn/ui, building a responsive and scalable career guidance platform.
- Integrated an AI chatbot powered by the Google Gemini API to deliver personalized course and career recommendations for students.

AI Travel planner for Students

[Link](#)

- Developed a web-based AI travel planner that helps students estimate and manage travel budgets by analyzing user inputs such as destination and expenses. The system provides personalized budget suggestions to support affordable and well-planned trips.
- Built the application using React.js, Node.js, Express.js, MongoDB, Google Gemini AI, JWT Authentication, and Nodemailer for full-stack development and AI integration.
- Planned future enhancements including real-time price integration, group trip planning, and advanced AI personalization to improve accuracy and user experience.

CERTIFICATION AND ACHIEVEMENTS

- SIH 2025 [Winner](#)
- Deep Learning, [SimpliLearn](#)
- Oracle Certified Generative AI [Professional](#)
- Machine Learning with Python, [Free Code Camp](#)

LANGUAGES KNOWN

English, Telugu, Hindi
